

For more details, please see my portfolio:

George-ast.github.io/qa-portfolio

I'm a QA Engineer with over 4 years of experience in manual testing of web and mobile applications. I focus on product quality, efficient testing, and continuous improvement.

I have experience working with cross-functional teams and supporting release processes. I help ensure stable and reliable software through structured testing and clear communication.

Experience

Jun 2021 — Present

QA Engineer · [AVADA MEDIA](#)

 [Linkedin.com/george-ast/](https://www.linkedin.com/company/george-ast/)

- I test web applications end-to-end, including functional, regression, REST API, and accessibility testing.
- I work closely with product and development teams to plan testing activities and releases.
- I write test cases, execute tests, and report defects. I also create simple automated tests.
